Fernhill Reservoirs

Overview

Requirements

Statewide Planning Goal 6: *Air, Water and Land Resources Quality*

Special Considerations

Water supply and distribution are not directly addressed in Hillsboro's existing comprehensive plan.

Natural resources, stormwater, and wastewater management are covered in separate background reports.

Key Findings

Challenges and Opportunities

- Supply development
- Seismic rehabilitation
- Aging infrastructure
- Meeting unique quantity and quality needs
- Regulatory challenges
- Water and energy conservation
- Regional collaboration

Earlier Review & Feedback

Internal Committee: February 2015

- Substantial revisions to scope and content of background report, including more detail on topics such as local authority, demand trends, aging infrastructure, and industrial water needs
- Separate goals for water supply, water quality, and sustainability

TAC: May 2016

- Modification of goal and policy language
- Addition of policies on energy conservation and reuse/recycling
- Discussion about whether to consolidate Goal 3 policies into Goals 1 and 2
